Mobile plans

We supply mobile plans, from unlimited calls with no data through to unlimited calls with unlimited data. Every plan comes with either a physical SIM card or an eSIM.

This is an English translation of our Dutch original, made with the help of AI. Mistakes are possible. If the two versions differ, the Dutch version applies.

Extra data SIM

Every plan can have two extra data SIMs at €6.00 per month per SIM. These SIMs share the data bundle of the main plan. On plans with unlimited data, a monthly limit of 25 GB applies per extra SIM.

Multisim for smartwatches

Multisim is available for iOS (Apple Watch) and Android (Samsung Galaxy Watch, Google). To apply, we need the EID of the smartwatch.

Finding the EID: Settings > About watch > Status info > EID

Samsung Galaxy Watch

1. Open the Wear app on your phone.
2. Go to Watch settings > Mobile plans.
3. Follow the steps on screen and choose ‘Use plan’ when the message appears.
4. Tap ‘Done’ once your plan is linked.

You can now use Multisim on your Galaxy Watch.

Apple Watch

Your plan is linked to your Apple Watch automatically.

1. Open the Watch app on your iPhone and go to ‘Mobile’.
2. Turn on ‘Mobile Data’ and ‘Data Roaming’.

You can now use Multisim on your Apple Watch.

Data Only

If you only need data, a Data Only SIM does the job.

NETHERLANDS	EU
1 GB	5,000 MB
10 GB	25,000 MB
30 GB	50,000 MB
50 GB	—
100 GB	—
250 GB	—
